Standard	Self-declated EPD based on the EN15804 Type: Cradle-to-Gate					
Issue date	30-11-2016					
Valid until	29-11-2021 Data on this certificate have been generated by The Right Environment and verified against the EN15804 EPD standard by an independent third party					
Declared unit	1 square meter acoustic p	anels with a service life c	of 50 years			
Description	Thickness	Weight	α	/	Dnfw	Rw
	23 mm	3.6 kg	0.9-1		40-44	21-27
Remarks	α _w ROCKFON® Sonar™ Bas: 0.2 , EPDs of construction products				indard.	

Demonstration of verification	
EN15804 serves as core PCR Third party verification of the declaration, according to ISO 14025 o Internal x External	
Third party verifier IVAM UVA B.V.	
As a general rule, a comparison or evaluation of EPD data is only possible when all of the data records to be compared have been drawn up in accordance with EN 15804 and the building context and/or product-specific performance features are taken into consideration.	

Product	
Product description	ROCKFON acoustic panels are intended for indoor use. The panels consist of a fire safe mineral wool core with a colored or painted facing. With no or little organic material, ROCKFON panels will stay flat in humid conditions and are naturally resistant towards microorganisms.
Product specification	ROCKFON acoustic panels are intended for indoor use. The panels consist of a fire safe mineral wool core with a colored or painted facing. With no or little organic material, ROCKFON panels will stay flat in humid conditions and are naturally resistant towards microorganisms.
Technnical data	Product range: 155-175 kg/m3 (157 kg/m3 for the declared unit). Tile sizes range from 300 mm wide to 2400 mm long (1 m2 for the declared unit). Weight: 2.6-7.8 kg/m2 (3.6 kg/m2 for the declared unit). Please see manufactures literature for more information.
Market	Global. The declared values represent an average product for the declared range. A direct extrapolation of the EPD results by using the thickness and density of the mineral core is not possible because it does not reflect the variations in the facing and coatings. These variations do not scale to mass or density. The variation of the EPD results due to product variations for the declared range is greater than +/- 10%. Therefore, if scaling is performed by the ROCKFON customer according to the specifically purchased thickness and weight according to the declared unit (23 mm and 3.6 kg/m2), the results can be considered a best guess. If you are a ROCKFON customer and require product specific results please contact your local ROCKFON resource.

Materials	Amount
Resin bonded stone wool core	73-97%
Facings	1-15%
Water based paints	0-16%
Glue	0,01%

Declaration of material content	
Safety data sheet	In compliance with European chemicals regulation (REACH), ROCKFON acoustic ceiling solutions are defined as articles why a Safety Data Sheet is not required. The mineral wool core consists of fibres spun from melted minerals based on vulcanoic mass, such as diabase or basalt, from recycled mineral wool and other secondary mineral resources. ROCKWOOL mineral wool is safe to use and carries the EUCEB label. For more information please contact your local ROCKFON resource.
Substances considered under European Chemicals Regulation REACH	The product contains no substances as listed in Annex XIV and Annex XVII of REACH regulation No 1907/2006 or the Norwegian priority list (A20).

Indoor air
Considerations

There are no indoor air health quality related concerns for the use of the declared construction products.

NR Not relevant

Additional environmental information not verified as part of the EPD					
Recycled content (preconsumer)	Recycled content of the stone wool core is 44%. Calculated according to ISO 14021. All recycled content calculated as post-industrial waste (Pre-consumer)				
End-of-life	Extended Producer Responsibility Programs are operated locally by the ROCKWOOL factory or ROCKFON customer service in Denmark, Germany, France, the Netherlands and the UK. ROCKFON products can be recycled at any ROCKWOOL recycling facility.				
Corporate Social Reporting	The ROCKWOOL group report on Corporate Social Responsibility is available www.rockwool.com				
Environmental management Systems	All factories manufacturing ROCKFON panels are covered by a formalised environmental management system (EMS). The EMS in the factories located in Poland and Netherlands are certified under ISO 14001.				

ND Not Declared

Product Health					
Emissions	ROCKFON acoustic ceiling tiles are certified low emission by one or more of the following schemes: Blauer Engel, M1, the Danish Indoor Climate label or the Singapore Green Building Council product certification scheme.				
Mineral wool fibre	ROCKWOOL/ROCKFON Stone Wool fibres are certified to be in compliance with bio-solubility requirements in EU Directive 97/69/EC (Note Q) and excempt from carcinogenic classification according to the European Union regulations on classification, labelling and packaging of substances and mixtures (EC No 1272/2008 and No 790/2009). Coarse fibres can cause itching on skin or foreign body effect in the upper respiratory system (mucous membranes) and eyes. Physical effects will generally abate in short time after end of exposure and no chemical effects ensue. It s recommended to follow work practices as printed on ROCKFON packaging
